7	Previous assistance received from other foreign sources	No
8	Required amount	20 000 \$
9	Co- financing	100 \$
10	The term of the project	September 2020 – December 2021
11	Project goal	Organization of distance learning in the system of additional education for children and youth
12	Project tasks	1. Creating a virtual classroom for conducting classes in a remote format. 2. Development of distance learning courses, programs, master classes and other forms of training in various fields. 3. Training of additional education teachers to conduct classes in a distance format. 4. Conducting classes in a remote format in a

		specially equipped virtual office.
13	<p>Detailed description of the project activities</p>	 <p>.1. To create a virtual office, it is planned to equip one of The Center's classroom with Internet access with the necessary equipment.</p> <p>To do this, it is planned to purchase the following types of equipment in the required quantity: Wifi router; Web camera; laptop; TV; video camera; tablet; interactive whiteboard; projector; laser color printer. Responsible persons: engineer - programmer Kryszalovich Y. V., Deputy Director for economic activities Yarmak T. E.</p> <p>2. At this stage, heads of departments, Deputy Directors, methodologists (only 8 people) develop distance courses and other forms of training in various areas: art, decorative and applied, technical, local history, etc. Responsible person: Deputy Director for educational and methodological work Rusina L. V.</p> <p>3. Teachers of additional education in full-time and part-time form are trained to conduct classes in a remote format. Responsible person: head of Department Radkevich N. G.</p> <p>4. At the final stage, a schedule of classes is drawn up in the virtual office and the classes themselves are held. Responsible person: Deputy Director of educational work Kasyanovich E. M.</p>
14	<p>Project background</p>	<p>The traditional format of additional education assumes that the child voluntarily and regularly comes to classes that he chooses at will. However, no one should be deprived of the opportunity to develop their abilities due to geographical or temporary isolation, social insecurity or inability to attend an educational institution due to physical disabilities.</p> <p>The fourth goal of the UN organization sustainable</p>

		<p>development Agenda, adopted in September 2015, provides for ensuring quality education for all, including improving educational institutions that take into account the interests of children, the special needs of persons with disabilities, as well as ensuring a safe, violence-free and effective learning environment for all.</p> <p>The traditional format of additional education that currently exists is not able to meet the needs of all groups of the population, in particular, children with disabilities; children who are home-schooled due to long-term illness, who are not able to study in a children's group for various reasons.</p> <p>Also, if the full-time educational process is suspended, this project will help solve the problem of obtaining additional education in full.</p>
15	Activity after the end of the project	<p>The Center will operate a virtual office that will expand the scope of training in additional education. Teachers of additional education will gain new knowledge and expand practical opportunities in their professional activities. Target groups of students with special needs will also be able to study remotely. The state educational institution "Mostovsky district center for creativity of children and youth" will have the opportunity to develop and implement a new format for providing educational services.</p>
16	Budget of project	20 000 \$
